09/04/19 - Can I Get A Witness?

RG AUDIO 090419

Acts 2:25-36

A story can be unbelievable, unless you have an eye-witness. The significance of a witness can change someone's story from a fairytale to solid fact. Don't believe the "tall tale" you child just shared but if she brings along a credible witness it's suddenly all plausible.

The events leading up to our scripture today certainly were inconceivable and disorienting. A man claiming to be the Messiah?the Son of God?was arrested by the powerful Roman government, tried, and executed. His followers scattered, fearful of similar experiences. And yet, here they are now, days later sharing openly about the grace and power of Jesus. They were no longer afraid to share what they had personally witnessed about the Messiah. No matter what those hearing believed about Jesus before that day, they could not deny an eye-witness account.

Often we are afraid to share our testimony with others. What if they reject us or don't believe us? One of the wonderful things about our testimonies is that it is our *eye-witness* of Jesus in our lives.
