RE- FLECTING GOD

04/13/21 - Working For The Good

RG AUDIO 041321

Romans 8:26-32

Have you ever been in a situation where you were choosing up sides? Everyone looks around hoping not to be the person who will be picked last. This situation causes some to feel less valuable than others. Even against such a backdrop, some then try to do their best to not let their team down.

In contrast, God chose us. We are not selected to be compared to anyone else. We were chosen without any reservation or requirement. When we were born God was on our side. God has always been for us. God has been anticipating our relationship with Him before we were born. We are a chosen people and God is on our side.

God is for our good. This does not mean everything is good, but that God is working everything for our good. God wastes nothing to bring good into our lives even if the good may come through adversity. God believes in us even when we do not believe in ourselves.

Be encouraged that God is working for your good. God is doing the work while you are trying to find the good in the difficult places of life.
