RE- FLECTING GOD

04/20/15 - God, Our Eyes Are On You

RG AUDIO 042015

2 Chronicles 20:1-19

Anyone who has lived on this earth for any period of time has experienced it. It's that moment when the ground seems to give way beneath us and our knees become weak. It usually happens in an instant? a phone call, a knock on the door, a doctor's diagnosis? but the effect lasts much longer. It can be the end of a much-loved job, the loss of a loved one, the rebellion of a child, news of an illness, or any one of a number of traumatic events.

Imagine God's people in the land of Judah, hearing that vast armies were heading their way, bent on their destruction. Were they weak in the knees? No doubt. Frightened? Surely. However, the Scripture tells us they came from all over to seek God. They knew He was the only source of help and salvation in the midst of traumatic times.

Our God is with us in the midst of the very worst situation this life can throw at us. Sometimes He takes the problem away entirely, other times He walks through it with us. Either way, He can be trusted.
