# RE- FLECTING GOD

**12/11/13 - The Blessing Relay**

RG AUDIO 121113

Psalm 72:12-20

God loves to bless His people. He will deliver the needy, the voiceless, the weak, and the dying. He will rescue the oppressed, the abused, and the tortured. His blessings never cease. Those who receive God's blessings have new mercies to share. They share through testimony, random acts of kindness, affirmation, rescue, and in many other ways. We are blessed to share the blessing. What God does for us, He teaches us to share with others.

We live in "gimmme" society. There are more people ready to get than to give. We didn't learn that from God who eagerly empties His coffers to share resources we could never imagine. It's time we started to learn why we are on this planet. We are blessed to bless. Don't make Christmas a time for the "gimmies." Get your family together. Start by sharing blessings with each other. Then see how many creative ways you can come up with to surprise others with kindness and help.
