

God's "Special Forces"

Description

[RG AUDIO 122914](#)

Psalm 91:1-16

Recently there was a documentary on the "special forces" units of the United States military. These soldiers are highly trained and effective. If conflict arises where the interest of the country needs protected these are the first folks called. These fierce warriors are the countries first line of defense when trouble or enemies arise.

God has his own "special forces." God is the Commander-In-Chief of a large, fierce and mighty army- His angels. This angelic army is at His disposal; ready to attend to conflict wherever His interests are at stake. As His children we take comfort in the fact that the troubles and crises that come our way are no match for the army God will send to our defense.

Psalm 91:11 tells us that God will send his angels to protect us in all of our ways; they are assigned to defend every part of our life. As children of the Almighty God, when troubles or enemies arise, let us call out to God. Help will come; we will be victorious.
