RE- FLECTING GOD

11/11/17 - Worship Faithfully Together

RG AUDIO 111117

Hebrews 10:19-31

Christian community will first be seen in genuine worship of God. The children of God meet Christ in public worship. Worship is expressed in the continuing growth of relationships in the community of faith. Growing relationships always involve a significant investment of time and energy among brothers and sisters. Worship of Christ executed properly in community is spiritually expensive, but it is also a reasonable service to our Maker, and is more valuable than all the gold in this world. God blesses worship, and by it, the Christian community is edified.

Each time brothers and sisters come together, we are renewing our covenant life and cleansing relationship with Jesus Christ. We remind ourselves about the faithfulness of God in the past and come into the present with willing obedience to our Savior.

According to the writer of Hebrews, there is no such thing as "solitary Christianity." The continued public gathering of believers is essential for growing spiritually in the community of faith, as shown in love and good deeds.
