RE- FLECTING GOD

11/25/20 - Adoption

RG AUDIO 112520

Galatians 4:1-7

Adoption is a beautiful and messy thing. Once a child is adopted she can enjoy all the rights and privileges of being a member of that family. Legally she is a member of that family, however, biologically she will always share a link to her birth family. Some children have healthy relationships with both their birth family and their adopted family. Others do not.

God wants to adopt us into His family. If only we will accept His Lordship over our lives. We can inherit all the rights of being a child of God including the eternal rewards. All we have to do is believe in Him and follow His ways.

Our adoption into God's family is not just a one-time decision. We must choose daily to follow in the footsteps of Christ and be transformed into His image. I am proud to be a child of the King and I am looking forward to sitting at His feet one day in heaven. Until then I will choose each day to continue to be transformed into His image.
